SPECIAL NOTE ON HIV REPORTING

The Maryland HIV/AIDS Reporting Act of 2007 became law on April 24, 2007. The law expanded HIV reporting and required that HIV cases be reported by name. The reporting period presented in this report includes the first months of the new reporting, however, most of the tables and figures are unaffected by this change. Section IX has been modified to include the changes and future reports will have additional modifications. For additional information on HIV reporting please visit the AIDS Administration web site at the above address.

Laboratory reporting of HIV cases by code existed from June 1, 1994 to April 24, 2007. Provider and laboratory reporting of HIV cases by name has existed since April 24, 2007.

Maryland is re-reporting code HIV cases by name, therefore, the same person may appear as a code HIV case and as a name HIV case.

HIV cases reported by name since 4/24/07 may also have been reported as AIDS cases.

Non-AIDS cumulative HIV cases included all HIV cases reported through the end of the period, that had not been reported as AIDS cases by the end of the period.

AIDS deaths included all causes of death.

The median time from diagnosis to report was one month for cumulative non-AIDS HIV code cases, 4 months for HIV name cases, and five months for cumulative AIDS cases.
